To whom it may concern:

I am writing to express my pleasure in doing business with Eric Gold. I am a pediatrician in private practice with two partners. We grew tired of renting and were looking to become owners of a building for our practice. Eric had a strategy for us. We were to look for a property to purchase for six months. If we did not find property to purchase then we were to shift to looking for rental properties. He presented us with an organized folio of available properties we toured several and settled on one. Eric helped us through each step of the negotiation. He paid attention to all of the deadlines that we had to keep straight. He was a resource to answer our questions and had many contacts to help us through the process. Eric was very patient with us - this was our first (and only) commercial purchase and he answered questions at all hours. He was always readily available - I memorized his cell phone number by the end of the purchase. Eric has a great sense of humor which is valuable during the stress of buying property. I would recommend his services to anyone buying commercial property or looking to make a move.

Sincerely, Adam Huff MD
